OBJECTIVE

- Seeking an entry-level computer engineering role to apply technical skills in problem-solving, innovation, and continuous learning.

EDUCATION

- Bachelor of Engineering**
Computer Engineering
Pacific School of Engineering
2022 - Present
- 12th(H.S.C)**
L. D. High School
63%
2022
- 10th(S.S.C)**
L. D. High School
74.20%
2020

INTERNSHIP

- Currently doing internship at UNICOVERAGE TECHNOLOGIES in Machine Learning.
- AI/ML internship in Sparks to Ideas.

CERTIFICATIONS

- SAP
- AI/ML internship

SKILLS

• Technical

- C
- Java
- Python
- DSA
- HTML
- MySQL

• Soft

- Communication skills
- Problem solving
- Adaptability
- Team work
- Leadership

PROJECTS

• Smart Canteen

Developed a web-based system for efficient food ordering with real-time tracking, digital payments, and automated billing. Tech: HTML, CSS, JavaScript.

• Smart City Traffic Management

Developed a system to predict traffic flow using data analytics, improving urban mobility and reducing congestion. Tech: Python, Machine Learning.

• Emotion based playlist generator

Developed a music web app that curates playlists based on user emotions. Features a mood-based recommendation system with a custom music library. Tech: Python, HTML, JavaScript.
